Funding instruments & tax incentives

# MDNP

EU-Latin America Mineral  
Development Network  
Platform

- ✓ Already more than 1000 institutions
- ✓ Partner search tool
- ✓ Information about mining sector of 7 LA countries
- ✓ Customized country fiches for more than 40 indicators
- ✓ Past and ongoing projects, initiatives and investments
- ✓ Database of 500 public and private funding instruments
- ✓ Much more....

# TARGET GROUP

- ✓ Junior and senior exploration and mining companies
- ✓ Industrial mining associations
- ✓ Mining equipment and technology suppliers, including SMEs
- ✓ Mining consulting and services companies
- ✓ Public mining bodies
- ✓ Funding and financial entities
- ✓ Geological Surveys from the EU and Latin America
- ✓ R&D&I entities from EU and Latin America
- ✓ EU and Latin American universities
- ✓ Infrastructure developers for the mining life cycle
- ✓ NGOs active in the mining sector

## Log in

If you are not yet a member of the MDNP platform and would like to [Join us](#), please, fill in the [Membership Application Form](#).

To enter the Mineral Development Network Platform (MDNP) Members' Area, please, [log in](#):

**Username**

**Password**

## Partner searching tool

All identified actors with linkages to the extractive industries in the EU and Latin America are included in a database that is available for MDNP members through the **Partner Finder tool**.

The Partner Finder database includes information on actors (e.g. a short description of the various types of organisations, their field of work, web links, etc.) categorized based on the specific fields of activity. Thus, it serves as an easy-to-use tool to find partners for cooperation purposes and contact points in the EU and Latin America alike.

## Country Fiches

Access the **Country fiches** tool to get an overview of the non-energy extractive sector of the Latin American countries Argentina, Brazil, Chile, Colombia, Mexico, Peru, and Uruguay classified by categories and indicators. Country fiches can be also downloaded as PDF on the tool.

A **SCOT analysis** (Strengths, Challenges, Opportunities and Threats) of the countries is also provided including a downloadable PDF with information of the bibliography of the data collected.

### 1. Select one or several indicators from the categories below:

#### Socio-economic framework

- Basic information
- GDP
- Inflation rate
- Unemployment Rate
- Macro relevance of the extractive sector

#### Rankings

- Rankings

#### Regulatory framework related to extractive activities

- Government and judiciary systems
- Exploration Licenses
- Mining Licenses
- Mining Code
- Permitting Procedures
- Government Support for the Mining Industry
- Mining Tax Regimes
- Occupational Health and Safety

#### Geology and Commodities

- Geological/ Metallogenic Map
- Geoscientific data availability and reliability
- Mineral Production
- Mineral Reserves
- Active Mines (non-exhaustive)

#### Infrastructure

- Transport Infrastructure
- Energy for Mining
- Principal Export Destinations, Year
- Principal Imports/Year
- Exports -Value

#### Focus: EU - Country's trade and investment

- European Union Trade with Country
- Trade Tariffs
- Main Resource/Mining related exports to country
- Main Resource/Mining related Imports from country

#### Community and environment

- Water resources
- Water for Mining
- Protected Areas
- Mining Liabilities
- Mining and society

#### Stakeholders in Mining

- Relevant Governmental Institutions
- Mining Companies (domestic)
- Mining Companies from EU
- Universities (curriculum related to Extractive Sector)
